HIGH QUALITY DETAILS EXPERTISE FROM LONG-STANDING EXPERIENCE

After developing the new aluminium LQ4 cabins for the expedition trucks, it didn't take long to come up with the idea of manufacturing the aluminium windows, doors, hatches and roller shutters to go with them. Thanks to our extensive experience in the design and manufacture of parts made of stainless steel, aluminium and plastic, we were able to quickly produce results. Our experience in industrial supply in the automotive and aeronautics industry also ensured that we manufacture a quality product. Our products are protected by various patents

Search for quality and continuous improvement:
Our team of professionals is passionate about what they do. Our production is located in Kreuzwertheim Germany. We don't do this alone, but together with our employees, suppliers and installation companies. By using the latest production technologies and materials, we strive to create and manufacture solutions in a sustainable manner. We do so without losing sight of the application.

Our motivation is customer satisfaction
By listening to our customers and continually collecting usage data about our products, we improve our products. The result is that we offer the most comprehensive range of products on the market.

Our sales team works from Elst, the Netherlands where we serve our customers in Europe and beyond. You can visit us by making an appointment or during trade shows and events.

We look forward to meet you, assisting you and advising you in connection with the implementation of your project.
